

Gantner SmartPass

Digital membership pass for your smart device

FACTS AT A GLANCE

- Easy check-in via your smart device directly at the terminal
- Always at hand – no searching or forgetting your membership card
- Contactless check-in with NFC – SmartPass
- 24/7 “over-the-air” SmartPass issuance without additional personnel costs
- Encrypted data transmission
- Customizable design tailored to your needs
- Seamless integration with existing management software: pass issuance via the G7 Connect API
- Apple Wallet and Google Wallet protocols supported
- Availability limited to countries where Apple Wallet and Google Wallet are supported

Tap. Access. Go.

Unlock the future of fitness club management with Gantner SmartPass. This innovative pass allows you to digitize your membership card and integrate it directly into your customers' smartphones or smartwatches via Apple Wallet or Google Wallet. It's quick, easy, and always at hand—no more searching for or forgetting your membership card.

With SmartPass, your members enjoy contactless check-in via NFC, streamlining their experience for a faster, more convenient gym visit. No matter the time of day, SmartPass can be issued “over-the-air” 24/7, eliminating the need for additional personnel costs while ensuring smooth operations around the clock.

Security is a top priority with Gantner SmartPass with all data transmission encrypted to protect your members' personal information. Plus, Gantner SmartPass offers an individual design, allowing customization according to your club's unique branding and customer requirements.

SmartPass integrates effortlessly with your existing management software via the G7 Connect API, enabling seamless credential issuance and ensuring a smooth transition for both your team and members.

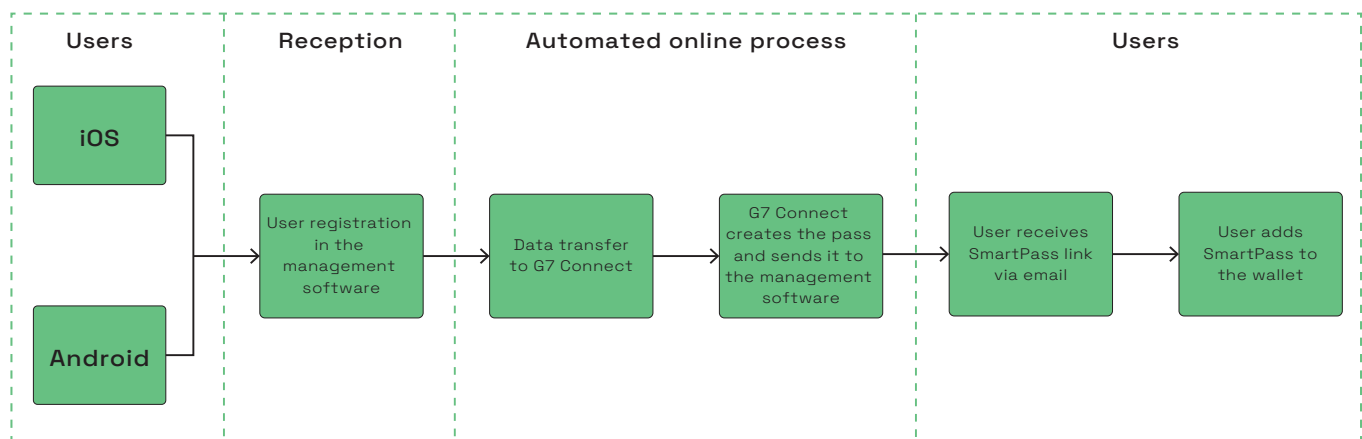

Boost your fitness club's efficiency and security with Gantner SmartPass—streamlined, secure, and always at your fingertips!
